(54) Title: METHOD AND DEVICE FOR AUTOMATICALLY CONNECTING A MOBILE TERMINAL DEVICE TO A CELLULAR NETWORK SERVER BY MEANS OF AN INTERCHANGEABLE MEMORY

(57) Abstract: The invention relates to a method for automatically connecting a mobile terminal device to a remote cellular network server, said mobile terminal device having an interface for connecting an interchangeable memory and having a cellular network interface, wherein a network address of said server can be retrieved, comprising the steps of detecting that an interchangeable memory has been connected to said mobile terminal, retrieving said network address of said server, and setting up a connection to said server via said network.
